## SUMMARY:

Certified Google Cloud Platform (GCP) Associate with expertise in backend technologies (Python with FastAPI, Node.js with Express.js) and frontend development using React.js. Experienced in deploying and managing applications on GCP, including Cloud Run, Cloud Scheduler, and BigQuery. Skilled in implementing OAuth for authorization and JWT for authentication, as well as creating scalable, efficient, and user-friendly event-driven solutions.

## TECHNICAL SKILLS:

- **Backend** - FastApi, Python, JavaScript, Node Js, Express Js
- **Database** - MySQL, MongoDB
- **DevOps** - GCP, CICD, Docker, Terraform
- **Analytics** - Tableau, Google Looker Studio, Google Sheets Dashboards

## EXPERIENCE:

### Software Engineer - Cybage Software | April 2022 - Present

- Led 12 deployments of backend systems integrating Google Ads and Merchant Center data, covering data fetching, transformation, and visualisation.
- Optimised SQL stored procedures and built Google Looker Studio dashboards with row-level security.
- Developed full-stack solutions using Python (FastAPI, Pandas) and React, with extensive experience in Google Cloud Platform (GCP) services such as Cloud Scheduler, Cloud Tasks, Cloud Run, BigQuery, Cloud Functions, Secret Manager, and App Engine.

### Tableau Developer - Neosoft Software | July 2021 - March 2022

- Developed and optimised Tableau reports and dashboards for marketing teams, enhancing data-driven decision-making.
- Utilised SQL to extract and transform data, ensuring accurate and insightful reporting.

## **PROJECTS:**

### **Client: GroupM**

#### **Project - Feed Optimizer**

Developed a backend application to fetch, transform, and visualise data from Google Ads and Google Merchant Center. Implemented Cloud Scheduler, Cloud Tasks, and SQL stored procedures for data processing and transformation. Created dashboards in Google Looker Studio and applied row-level security.

- **Skills:** Python, FastAPI, Pandas, Google Cloud Platform (Cloud Scheduler, Cloud Tasks, Cloud Run, BigQuery), Google Looker Studio, SQL, Sendgrid, Multithreading

#### **Project - YouTube Campaign Launcher for Google Ads and DV360 Platform**

Built a backend application for campaign creation, channel management, insertion orders (IO), and Structured Data Feed (SDF) integration into Google Ads and DV360. Implemented telemetry with Cloud Run and handled authentication and authorization.

- **Skills:** Python, FastAPI, Pandas, React, Node.js, JavaScript, BigQuery, Cloud Run, Cloud Tasks, App Engine, Secret Manager, Cloud Functions

#### **Project - Google Ads Script Development and DV360 Integration**

Developed Google Ads scripts for monitoring, alert generation, report generation, and URL checking. Provided long-term support for major agencies including GroupM, Essence Mediacom, Media Future Group, and Wavemaker. Created a web application using Google Apps Script to interact with the DV360 platform, incorporating custom UI elements in Google Sheets with HTML and CSS.

- **Skills:** Google Ads Scripts, Google Apps Script, Google Sheets, HTML, CSS, JavaScript

#### **Project - Backend Migration and Frontend Development**

Migrated backend services from Python (FastAPI) to Node.js (Express.js) and developed the frontend with React for enhanced performance and scalability.

- **Skills:** Python, Node.js, Express.js, JavaScript, React, GCP

## **EDUCATION:**

**Dr. D. Y. Patil Collage, Pune | BE in Chemical Engineering - 2020**
